## NOTIFICATION.

No. 4063M.—*The 22nd November 1895.*—In exercise of the power conferred by section 17, sub-section (2) of the Cantonments Act (XIII of 1889), and with the previous sanction of the Governor-General in Council, the Lieutenant-Governor is pleased to direct that the provisions of sections 279 to 286, both inclusive, and of sections 295 and 297 of the Bengal Municipal Act III of 1884, as amended by Act IV of 1894, shall apply to the assessment and recovery of the water-rate imposed in the Cantonment of Barrackpore by the Notification No. 4062M., of this date, in the adapted form hereto annexed.

*Sections 279—286, 295 and 297 of the Bengal Municipal Act III of 1884, as amended by Act IV of 1894, as adapted to the Cantonment of Barrackpore.*

279. (1) It shall be lawful for the Cantonment Committee at a meeting to impose a water-rate not exceeding seven and-a-half per centum on the annual value of holdings when the houses and lands are situated in any road supplied with water, and not exceeding six per centum when the houses and lands are situated in any road not so supplied.

(2) In fixing the amount of the rate, regard shall be had to the principle that the total net proceeds of the tax, together with the estimated income from payments for water supplied from the works under special contract or otherwise, shall not exceed the amount required for carrying out the purposes of these provisions.

(3) The water-rate shall be paid by the occupiers of the holdings by quarterly instalments in advance :

Provided that such water-rate shall not be levied upon—

- (a) any house or land, no part of which is within a radius of 1,000 feet from the nearest standpipe or other supply of water available to the public; or
- (b) any land used exclusively for purpose of agriculture;

Provided also that nothing in this section shall prevent the Cantonment Committee from making any special arrangement consistent with this Act with persons residing beyond the radius fixed in clause (a) above.

280. The annual value of holdings shall be the value determined by the Cantonment Committee for the imposition of the rate on holdings which is now levied in the Cantonment.

281. Whenever the person by whom the water-rate shall have been paid, or from whom the said rate shall have been recovered, is not the owner of the house or land in respect of which the water-rate shall have been assessed, such person may recover from the owner one-fourth of the water-rate so paid or recovered, and may deduct the same from the rent payable by him to such owner.

282. Whenever any house or land has been unoccupied during an entire quarter, the owner of the said house or land shall pay to the Cantonment Committee one-fourth of the sum which would have been payable as water-rate by the occupier if such house or land had been occupied.

The sum payable by the owner under this section shall be deemed to be due on the first day of the quarter following that in respect of which the said sum is payable.

283. Whenever any quarterly instalment of the water-rate shall have been paid in respect of any house or land, and such house or land shall, during the quarter for which such instalment shall have been paid, cease to be occupied, the person who shall have paid such water-rate shall be entitled to be repaid by the Cantonment Committee three-fourths of such sum as shall bear to the amount paid by him the same proportion which the residue of the quarter bears to the entire quarter :

Provided that notice shall have been given in writing to the Cantonment Committee of such house or land being unoccupied, and that the application for refund be made within six months next after the date on which the house or land ceased to be occupied.

The date on which the said notice is delivered at the office of the Cantonment Committee shall, for the purposes of this section, be deemed to be the date on which the house or land ceased to be occupied.

284. Whenever any house or land which shall have been unoccupied shall begin to be occupied during any quarter, there shall be forthwith payable by the occupier in respect of such house or land a sum calculated at one-fourth of the rate that would have been payable if the house or land had been occupied during the entire quarter for the period during which the house or land was not occupied, and the full rate for the residue of the quarter.

And such occupier shall be entitled to deduct from the rent, or otherwise recover from the owner, one-fourth of the water-rate that would have been payable if the house or land had been occupied during the entire quarter.

285. Whenever any person holding any house or land from the owner thereof has sublet the same in severalty to two or more persons, the person holding from the owner shall be deemed to be the occupier of such house or land.

286. The provisions of sections three hundred and twelve,\* three hundred and thirteen, and three hundred and fourteen shall be applicable, provided that the owner shall not be entitled to recover from any occupying tenant more than three-fourths of the water-rate that would, but for this proviso, be recoverable by him under the said sections.

295. The Cantonment Committee at a meeting may determine what quantity of water shall be supplied to the occupier of every house, free of further charge, for every rupee paid to the Committee as water-rate on account of such house.

If the Cantonment Committee have reason to believe that the occupier of any house consumes more water than he is entitled to as aforesaid, it shall be lawful for them to provide a water meter at their own expense, and to attach the same to the water-pipes of the said house; and any water which may be used over and above the quantity to which the occupier is entitled as aforesaid, shall be paid for by him at such rate as the Cantonment Committee at a meeting may determine.

297. If any person supplied with water shall neglect to pay the water-rate hereinbefore mentioned at the times of payment thereof, or the charge made for the said water when supplied for other than domestic purposes, the Cantonment Committee may turn off the water from the house or land in respect of which such rate or charge is payable, and may recover the expense of turning off the water from such person.

Provided that the stopping or cutting off the supply of water shall not relieve any person from any penalties or liabilities which he may have incurred.

### REVISED ADVERTISEMENT.

**A Dictionary of the Economic Products of India.** By DR. GEO. WATT, C.I.E.

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first five volumes and Vol. VI, Parts I, II, III & IV of the Dictionary are now ready at the Office of Superintendent of Government Printing, No. 8, Hastings Street, Calcutta, and will be supplied to non-subscribers on receipt of the price for the complete set, which is Rs. 45 in India, and 3 guineas in England (exclusive of the Index, for which a separate charge will be made): packing and postage, in India, 8 annas per volume; for England, Rs. 2-6 per volume. For copies bound in half calf or half morocco, Rs. 6 and 8 shillings, respectively, will be charged extra for the whole set.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal octavo pages; Vol. II embraces the letter C in 689 pages; Vol. III contains the letters D, E, F and half of G. Vol. IV latter half of G to middle of L; and Vol. V contains the latter half of L to end of O; Vol. VI, (which will consist of four parts), Part I, contains letters P to R. The whole work will, it is expected, be completed in nine volumes (including Parts II to IV of Vol. VI) during the current year; but a tenth volume may also be issued, consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index will practically be a Glossary of the vernacular and European names of the plants, animals and minerals of India, and as such will be a work of reference, which, it is hoped, may prove of considerable value.

**A Dictionary of the Economic Products of India.** By DR. GEO. WATT, C.I.E.,

Reporter on Economic Products.

Published under the authority of the Government of India in the Revenue and Agricultural Department.

The first five volumes and Vol. VI. Parts I, II, III & IV of the Dictionary are now ready at the Office of Superintendent of Government Printing, No. 8, Hastings Street, Calcutta, and will be supplied to non-subscribers on receipt of the price for the complete set, which is Rs. 45 in India, and 3 guineas in England (exclusive of the index, for which a separate charge will be made): packing and postage, in India, 8 annas per volume; for England, Rs. 2-6 per volume. For copies bound in half calf or half morocco, Rs. 6 and 8 shillings, respectively, will be charged extra for the whole set.

The Dictionary is intended to deal with the products of India—animal, vegetable, and mineral; each product being treated after a uniform plan, the paragraphs of which give the scientific, vernacular, and European names; habitat or source; history; properties and uses (both chemical and industrial); trade statistics; markets, &c. The work is arranged alphabetically according to scientific nomenclature, but commercial and important vernacular names are also given as cross references, so that little difficulty need be experienced in finding the account of a product even when its scientific name is unknown to the reader.

An important feature of the Dictionary consists in the fact that derived information is in every instance given under quotation marks, and with a reference to the original publication. Numerous contributors have, however, furnished the results of new discoveries and confirmed the vernacular names, so that the Dictionary is not only a complete compilation of published information, but has been brought abreast of the most recent inventions and discoveries.

Volume I contains the letters A and B, and consists of 559 royal octavo pages; Vol. II embraces the letter C in 689 pages; Vol. III contains the letters D, E, F and half of G. Vol. IV latter half of G to middle of L; and Vol. V contains the latter half of L to end of O; Vol. VI, (which will consist of four parts), Part I, contains letters P to R. The whole work will, it is expected, be completed in nine volumes (including Parts II to IV of Vol. VI) during the current year; but a tenth volume may also be issued, consisting of an Index to all the vernacular and other names contained in the Dictionary. The Index will practically be a Glossary of the vernacular and European names of the plants, animals and minerals of India, and as such will be a work of reference, which, it is hoped, may prove of considerable value.
